

PMB SHARIAH EQUITY FUND

**SEMI-ANNUAL REPORT FOR THE
FINANCIAL PERIOD ENDED
29 FEBRUARY 2024**

Dear Unitholder,

MOVING TOWARDS ELECTRONIC COMMUNICATION.

We wish to inform that you have been automatically enrolled to receive funds' reports via electronic medium effective 31 March 2018. You will receive a notification by SMS/email when the funds' report is ready for download on our website at www.pmbinvestment.com.my. Please note that the report will be available to view and download from our website until next financial report. Please inform us in writing if you do not wish to receive the documents electronically.

Should you have any queries or need further clarification, please do not hesitate to contact our Customer Service Units at 03-4145 3900 or email at clients@pelaburanmara.com.my.

Thank you.

3. MANAGER'S REPORT

We are pleased to present the Manager's report of PMB SEF for the 6 months financial period ended 29 February 2024 (31 August 2023 until 29 February 2024).

3.1 FUND PERFORMANCE

The Fund's performance measured against benchmark for 5-year financial period ended 29 February 2024 is as follows:-

For the 5-year financial period ended 29 February 2024, the Fund's rose by 171.24% compared to the benchmark return of -1.74%.

For the 6 months financial period ended 29 February 2024, NAV/unit increased by RM0.031 or 5.83% to RM0.5625 from RM0.5315 as at 30 August 2023.

3.2 INCOME DISTRIBUTION/UNIT SPLIT

No income distribution and unit split were declared during the 6 months financial period ended 29 February 2024.

3.3 POLICY AND INVESTMENT STRATEGY

The focus will be on companies with growth prospects over medium to long term horizon and/or having forecast dividend yield of 3.0% per annum or above, to optimize the total returns of the Fund. Shariah-compliant equity exposure of minimum 70.0% to maximum 99.5%.

We had grown more positive over the local market during the 6 months financial period ended 29 February 2024 on the back of improving economic conditions. Our optimism stemmed from higher tourist arrivals, a further revival of exports, and diminishing political uncertainty. Our optimism had been reflected in the Fund's more aggressive positioning in Shariah-compliant equity. As at 29 February 2024, our Shariah-compliant equity exposure stood at 86.5% as compared to 74.6% recorded on 28 February 2023 and 71.1% recorded on 28 February 2022.

3.4 CROSS TRADE

No cross-trade transactions have been carried out during the reported period.

3.5 SECURITIES FINANCING TRANSACTIONS

PMB SEF has not undertaken any securities lending or repurchase transactions during the financial period under review.

3.6 ASSET ALLOCATION OF THE FUND

Comparison of investment components based on NAV is as follows: -

ASSET ALLOCATION				
	29 Feb 2024 (%)	30 Aug 2023 (%)	Change (%)	Investment Exposure Average (%)
Shariah-compliant Equity	86.49	77.87	8.62	82.18
Islamic Deposits/ cash/ others	13.51	22.13	(8.62)	17.82

As at 29 February 2024, 86.49% of the Fund's NAV was invested in Shariah-compliant equity market. The balance of 13.51% was held in Islamic deposits and/or other permitted investments.

3.7 EQUITY MARKET REVIEW

For the half-year financial period ended 29 February 2024, the main benchmark for the Malaysian Shariah-compliant equity, FBMSHA Index, appreciated by 607.35 points or 5.56% to 11,527.99 while the main benchmark for Malaysian stock market, FBMKLCI, increased by 99.50 points or 6.85% to 1,551.44.

During that period, the FBMSHA recorded its highest level of 11,625.93 on 20 February 2024 and its lowest of 10,728.06 on 7 December 2023. Meanwhile, FBMKLCI posted its highest level of 1,558.80 on 27 February 2024 while the lowest level of 1,415.60 was recorded on 5 October 2023. The movement range for the FBMSHA during the stipulated financial period was 897.87 points as compared to 1,444.73 points during the same period in the previous year.

In September, the FBMKLCI lost 27.77 points, or 1.9%, month-on-month (MoM), but gained 3.5% (+48.26 points) quarter-on-quarter (QoQ) to close at 1,424.17 points. The local market ended in negative territory as investors continued to fret about Fed's hawkish pause, surging Treasury yields and dollar index, and a looming US government shutdown.

3.7 EQUITY MARKET REVIEW (CONTD.)

Sentiment was also dampened by heightened concerns over China's property crisis and growing pessimism over an economic recovery in the country. Locally, Bank Negara Malaysia (BNM) maintained the Overnight Policy Rate (OPR) at 3.00% as widely expected and domestic investors reassessed the 12 Malaysian Plan (12MP) – Mid Term Review.

In October, the FBMKLCI gained 17.97 points, or 1.3%, MoM to close at 1,442.14 points. Sentiment dented by intensified fear over higher-for-longer US interest rate, the spike in US Treasury yield, Gross Domestic Product (GDP) downgrade from the region and weakening Asia's manufacturing. Domestically, unencouraging economic development and foreign selling momentum added pressure on the local market. Despite the negative sentiment in the global market, FBMKLCI ended in positive territory due to buying support on the selected heavyweight counters. Prime Minister presented Budget 2024, themed "Economic Reforms, Empowering the People" in which the Malaysian economy is forecast to grow within the range of 4.0% to 5.0% next year (2023E: 4.0%). Meanwhile, the World Bank and International Monetary Fund (IMF) forecast Malaysia's real GDP to grow by 3.9% and 4.0% respectively in 2023. Both agencies expect Malaysia's GDP to grow 4.3% in 2024.

Tracking the positive performance in the global markets throughout the month and the MSCI rebalancing exercise at month-end helped the FBMKLCI gain 10.60 points, or 0.7%, MoM to close at 1,452.74 points in November. Besides, the market trended higher as foreign flows had been rising while local institutions were seeing an influx of buying flows in-line with the rise of the overall global market sentiment. The bulk of this month's gains were also due to the mostly better-than-expected US corporate earnings, more cooling October Consumer Price Index, the notion that the Fed is done raising rates and various economic data that seemed consistent with a soft-landing economic scenario in the US. Investors also digested high-level discussions between Chinese President Xi Jinping and US President Joe Biden during the APEC summit in California. Locally, the Malaysian economy grew by 3.3% in the third quarter of 2023 (2Q 2023: 2.9%), BNM maintained its OPR at 3% in its Monetary Policy Committee (MPC) meeting and a 30-day visa-free entry for travellers from China and India to Malaysia from 1 December 2023.

In December, the FBMKLCI was up marginally by +1.86 points or +0.1% MoM and gained 2.1% (+30.49 points) QoQ to close at 1,454.66. Year-to-date (YTD), the FBMKLCI ended 2023 lower by 2.7%. The benchmark index underwent a mild window-dressing early in the first half of the month, bolstered by the Federal Reserve's mid-December policy projections signalling a rate cut in 2024, before experiencing a seesaw trade influenced by persistent selling pressure throughout the rest of the month. Besides, the recovery attempt towards month-end failed to sustain due to the lack of continued buying interest. Meanwhile, glove counters were back in vogue with rising Covid-19 cases. In the month, the Prime Minister reshuffled the cabinet line-up and his visit to Japan attracted RM6.56 billion in potential investments.

In January 2024, the FBMKLCI was up by +58.32 points or +4.0% MoM to close at 1,512.98. The benchmark index touched the highest level since August 2022, driven by external developments such as China's potential stimulus and US economic data revived hope for a soft-landing scenario in the US.

3.7 EQUITY MARKET REVIEW (CONTD.)

Meanwhile, domestic sentiment remained optimistic despite the continued weakness in Ringgit. However, in the middle of the month, small caps and ACE market stocks suffered losses as 13 stocks either hit limit-downs, drew unusual market activity (UMA) queries from the bourse regulator, or triggered the freezing of their intra-day short-selling (IDSS). After the sell-down, the market rebounded strongly and breached the 1,500 resistance level driven by foreign buying. On the economic matter, the IMF and World Bank expected the global economy to grow by 3.1% and 2.4%, respectively, in 2024. Meanwhile, BNM held its OPR unchanged at 3% for the fourth consecutive meeting on 24 January 2024, in line with market consensus.

In February, Bursa Malaysia had a positive month and the benchmark FBMKLCI ended at a 20-month high of 1,551.44, representing an increase of +38.46 points or +2.5% MoM. Foreign investors played a significant role in supporting the market as they became net buyers. The local bourse took its cue from the recovery rally in the US, which offered global markets some respite. Malaysia reported its GDP growth for Q4 2023 at 3.0%, and the 2023 GDP figure was +3.7% compared to +8.7% in 2022, amid lower global trade and private consumption.

In this volatile market sentiment, the NAV/unit increased by 5.83% within a 6-month period ended 29 February 2024.

3.8 MONEY MARKET REVIEW

The Monetary Policy Committee (MPC) of BNM decided to maintain the OPR at 3.00% during its last meeting held on 24 January 2024.

The global economy continues to expand, driven by domestic demand amid strong labour market conditions. There are further signs of recovery in the electrical and electronics (E&E) sector, but global trade remains soft partly due to the continued shift in spending from goods to services, and ongoing trade restrictions. While China's economy continues to show signs of improvement, its recovery remains modest given the weakness in the property market. Global headline and core inflation edged downwards in recent months but continue to be above average. On the global front, while the monetary policy stance is likely to remain tight in the near term, the tightening cycle has peaked for most central banks. The growth outlook remains subject to downside risks, mainly from an escalation of geopolitical tensions, higher-than-anticipated inflation outturns, and heightened volatility in global financial markets.

For the Malaysian economy, the fourth quarter advance estimates for GDP affirmed that the overall growth for 2023 expanded within expectations. Moving forward, growth is expected to improve in 2024, supported by the recovery in exports and resilient domestic expenditure. Continued employment and wage growth remain supportive of household spending. Tourist arrivals and spending are expected to improve further. Investment activity would be supported by continued progress of multi-year projects in both the private and public sectors, and implementation of catalytic initiatives under the national master plans. The growth outlook remains subject to downside risks stemming from weaker-than-expected external demand and larger declines in commodity production. Meanwhile, upside risks to growth mainly emanate from greater spillover from the tech upcycle, stronger-than-expected tourism activity and faster implementation of existing and new projects.

3.8 MONEY MARKET REVIEW (CONTD.)

As expected, both headline and core inflation continued to moderate in the fourth quarter, mainly due to lower cost pressures amid stabilising demand conditions. Overall, both headline and core inflation for 2023 are within expectations, averaging for the year at 2.5% and 3.0%, respectively. In 2024, inflation is expected to remain modest, broadly reflecting stable cost and demand conditions. Risks to the inflation outlook remain highly subject to changes to domestic policy on subsidies and price controls, as well as global commodity prices and financial market developments. Of note, the Government's intention to review price controls and subsidies in 2024 will affect the outlook for inflation and demand conditions.

The recent ringgit movements are primarily driven by external factors, and not reflective of the current domestic economic performance and prospects. As the risk of heightened volatility in the global financial and foreign exchange markets remains, Bank Negara Malaysia will continue to ensure sufficient liquidity to support the orderly functioning of the domestic foreign exchange market. Financial institutions continue to operate with strong capital and liquidity buffers, with domestic financial conditions remaining conducive to sustain credit growth.

(Source: Bank Negara Malaysia's website)

3.9 INTEREST OF UNIT HOLDERS

Throughout the 6 months financial period ended 29 February 2024, there is no circumstances that materially affect any interest of the unit holders other than business transaction in accordance with the limitations imposed under the Deeds, Securities Commission's Guidelines, the Capital Markets and Services Act 2007 and other applicable laws during the financial period then ended.

3.10 SOFT COMMISSIONS AND REBATES

Throughout the 6 months financial period ended 29 February 2024, the Fund Manager received soft commission from brokers that indirectly assists in the decision-making process pertaining to the Fund's investment. The soft commission received include research, software and computer hardware related to Fund's investment and advisory services on Shariah matters. The soft commissions received were for the benefit of the Fund and there was no churning of trades.

4. LAPORAN PENGURUS

Bagi tempoh enam bulan kewangan berakhir 29 Februari 2024 (31 Ogos 2023 hingga 29 Februari 2024).

4.1 PRESTASI DANA

Prestasi Dana berbanding tanda aras bagi tempoh 5 tahun kewangan berakhir 29 Februari 2024 adalah seperti berikut:-

Sepanjang tempoh 5-tahun kewangan berakhir 29 Februari 2024, Dana meningkat sebanyak 171.24% manakala, penanda aras Dana jatuh sebanyak 1.74%.

Sepanjang tempoh 6-bulan kewangan berakhir 29 Februari 2024, NAB/unit Dana meningkat sebanyak RM0.031 atau 5.83% kepada RM0.5625 daripada RM0.5315 pada 30 Ogos 2023.

4.2 PENGAGIHAN PENDAPATAN/TERBITAN UNIT PECAHAN

Dana ini tidak mengisytiharkan sebarang pengagihan pendapatan atau unit pecahan bagi tempoh 6-bulan kewangan berakhir 29 Februari 2024.

4.3 POLISI DAN STRATEGI PELABURAN

Fokus akan diberikan kepada syarikat yang mempunyai prospek pertumbuhan dalam jangka sederhana hingga panjang dan/atau hasil dividen sebanyak 3.0% setahun atau ke atas, untuk mengoptimumkan jumlah pulangan Dana. Pendedahan ekuiti patuh Syariah minimum 70.0% hingga maksimum 99.5%.

Dana berkembang lebih positif berbanding pasaran tempatan dalam tempoh 6-bulan kewangan berakhir 29 Februari 2024 berikutan keadaan ekonomi yang bertambah baik. Keyakinan ini berpunca daripada kemasukan pelancong yang lebih tinggi, perkembangan eksport, dan ketidaktentuan politik yang semakin berkurangan. Keyakinan ini telah dicerminkan dalam kedudukan Dana yang lebih agresif dalam ekuiti. Pada 29 Februari 2024, pendedahan ekuiti patuh Syariah berada pada 86.5% berbanding 74.6% yang dicatatkan pada 28 Februari 2023 dan 71.1% yang dicatatkan pada 28 Februari 2022.

4.4 DAGANGAN SILANG

Tiada urusan dagangan silang yang dilaporkan di dalam tempoh kewangan.

4.5 TRANSAKSI PEMBIAYAAN SEKURITI

PMB SEF tidak menjalankan sebarang pinjaman sekuriti atau transaksi pembelian semula sepanjang tempoh kewangan dalam tinjauan.

4.6 PERUMPUKAN ASET DANA

Pecahan seunit mengikut kelas aset adalah seperti berikut:-

PECAHAN SEUNIT MENGIKUT KELAS ASET				
	29 Feb 2024 (%)	30 Ogos 2023 (%)	Perubahan Peratus Mata	Purata Pendedahan Pelaburan (%)
Ekuiti Patuh Syariah	86.49	77.87	8.62	82.18
Deposit Islam dan lain-lain	13.51	22.13	(8.62)	17.82

Pada 29 Februari 2024, pegangan ekuiti patuh Syariah Dana ialah sebanyak 86.49%. Baki 13.51% berada dalam deposit Islam dan pelaburan-pelaburan lain yang dibenarkan.

4.7 SUASANA BURSA SAHAM

Bagi tempoh 6-bulan kewangan berakhir 29 Februari 2024, penanda aras utama ekuiti patuh Syariah Malaysia iaitu Indeks FBMSHA meningkat 607.35 mata atau 5.56% kepada 11,527.99 manakala penanda aras utama Bursa Malaysia iaitu FBMKLCI meningkat 99.50 mata atau 6.85% kepada 1,551.44.

Bagi tempoh tersebut, FBMSHA mencatat paras tertinggi 11,625.93 pada 20 Februari 2024 dan paras terendah 10,728.06 pada 7 Disember 2023. Sementara itu, FBMKLCI mencatat paras tertinggi 1,558.80 pada 27 Februari 2024 manakala paras terendah pula ialah 1,415.60 yang dicatat pada 5 Oktober 2023. Julat pergerakan Indeks FBM Syariah untuk tempoh tersebut ialah 897.87 mata berbanding 1,444.73 mata pada tempoh yang sama tahun sebelumnya.

Pada September, FBMKLCI susut 27.77 mata, atau 1.9%, bulan ke bulan (MoM), tetapi menokok 3.5% (+48.26 mata) suku-ke-suku (QoQ) untuk ditutup pada 1,424.17 mata. Pasaran tempatan berakhir dalam wilayah negatif apabila pelabur terus bimbang tentang pandangan hawkish Fed, peningkatan hasil Perbendaharaan dan indeks dolar, dan penutupan kerajaan AS yang semakin hampir.

4.7 SUASANA BURSA SAHAM (SAMB.)

Sentimen juga dilemahkan oleh kebimbangan yang memuncak terhadap krisis hartanah China dan pesimisme yang semakin meningkat terhadap pemulihan ekonomi di negara itu. Di peringkat tempatan, Bank Negara Malaysia (BNM) mengekalkan Kadar Dasar Semalaman (OPR) pada 3.00% seperti yang dijangkakan dan pelabur domestik menilai semula Kajian Separuh Penggal Rancangan Malaysia Ke-12 (RMK-12).

Pada Oktober, FBM KLCI menokok 17.97 mata, atau 1.3%, MoM untuk ditutup pada 1,442.14 mata. Sentimen terjejas oleh kebimbangan yang semakin meningkat terhadap kadar faedah AS yang lebih tinggi untuk tempoh yang lebih lama, lonjakan hasil Perbendaharaan AS, penurunan KDNK rantau ini dan sektor pembuatan Asia yang melemah. Di peringkat domestik, perkembangan ekonomi yang kurang menggalakkan dan momentum jualan asing menambah tekanan ke atas pasaran tempatan. Walaupun sentimen negatif dalam pasaran global, FBMKLCI berakhir di wilayah positif berikutan sokongan belian di kaunter wajaran tinggi terpilih. Perdana Menteri membentangkan Bajet 2024, bertemakan “Pembaharuan Ekonomi, Memperkasa Rakyat” di mana ekonomi Malaysia diramal berkembang dalam lingkungan 4.0% hingga 5.0% tahun depan (2023E: 4.0%). Sementara itu, Bank Dunia dan Tabung Kewangan Antarabangsa (IMF) meramalkan KDNK benar Malaysia masing-masing berkembang sebanyak 3.9% dan 4.0% pada 2023. Kedua-dua agensi menjangkakan KDNK Malaysia tumbuh 4.3% pada 2024.

Menjejaki prestasi positif dalam pasaran global sepanjang bulan dan langkah pengimbangan semula MSCI pada akhir bulan membantu FBM KLCI menokok 10.60 mata, atau 0.7%, MoM untuk ditutup pada 1,452.74 mata pada November. Selain itu, pasaran menunjukkan arah aliran lebih tinggi apabila aliran asing meningkat manakala institusi tempatan menyaksikan kemasukan aliran belian sejajar dengan peningkatan sentimen pasaran global secara keseluruhan. Sebahagian besar daripada keuntungan bulan ini juga dipacu oleh pendapatan korporat AS yang kebanyakannya lebih baik daripada jangkaan, Indeks Harga Pengguna Oktober yang lebih menyejukkan, tanggapan bahawa Fed telah selesai menaikkan kadar faedah dan pelbagai data ekonomi yang kelihatan konsisten dengan senario pendaratan ekonomi AS yang tidak mengejut. Pelabur juga memantau perbincangan peringkat tinggi antara Presiden China Xi Jinping dan Presiden AS Joe Biden semasa sidang kemuncak APEC di California. Di dalam negara, ekonomi Malaysia berkembang 3.3% pada suku ketiga 2023 (S2 2023: 2.9%), BNM mengekalkan OPRnya pada 3% dalam mesyuarat Jawatankuasa Dasar Monetari (MPC) dan kemasukan tanpa visa selama 30 hari untuk pelancong dari China dan India ke Malaysia mulai 1 Disember 2023.

Pada Disember, FBMKLCI naik sedikit +1.86 mata atau +0.1% MoM dan menokok 2.1% (+30.49 mata) QoQ untuk ditutup pada 1,454.66. Untuk tempoh setahun (YTD), FBMKLCI berakhir 2023 lebih rendah sebanyak 2.7%. Indeks penanda aras mengalami perubahan sederhana pada awal separuh pertama bulan, disokong oleh unjuran dasar Rizab Persekutuan pada pertengahan Disember yang mengunjurkan pemotongan kadar faedah pada 2024, sebelum mengalami perdagangan naik-turun yang dipengaruhi oleh tekanan jualan yang berterusan sepanjang baki tempoh. Selain itu, percubaan pemulihan menjelang akhir bulan gagal dikekalkan kerana kekurangan minat belian yang berterusan. Sementara itu, kaunter sarung tangan kembali popular dengan peningkatan kes Covid-19. Pada bulan ini, Perdana Menteri merombak barisan kabinet dan lawatannya ke Jepun menarik RM6.56 bilion dalam potensi pelaburan.

4.7 SUASANA BURSA SAHAM (SAMB.)

Pada Januari 2024, FBMKLCI naik +58.32 mata atau +4.0% MoM untuk ditutup pada 1,512.98. Indeks penanda aras mencecah paras tertinggi semenjak Ogos 2022, dipacu oleh perkembangan luar seperti potensi rangsangan China dan data ekonomi AS menghidupkan semula harapan senario “soft landing” di AS. Sementara itu, sentimen domestik kekal optimis walaupun Ringgit terus melemah. Walau bagaimanapun, pada pertengahan bulan, saham bermodal kecil dan pasaran ACE mengalami kerugian kerana 13 saham sama ada mencecah had penurunan, menyebabkan pertanyaan aktiviti pasaran luar biasa (UMA) daripada pengawal selia bursa, atau mencetuskan penggantungan jualan singkat intra-harian mereka (IDSS). Selepas penurunan harga, pasaran melantun semula dengan kukuh dan melepasi paras rintangan 1,500 didorong oleh belian asing. Berkaitan hal ekonomi, IMF dan Bank Dunia menjangkakan ekonomi global berkembang masing-masing sebanyak 3.1% dan 2.4%, pada 2024. Sementara itu, BNM mengekalkan OPRnya tidak berubah pada 3% untuk kali keempat berturut-turut pada 24 Januari 2024, sejajar dengan konsensus pasaran.

Pada Februari, Bursa Malaysia mencatatkan kenaikan positif dan penanda aras FBMKLCI berakhir pada paras tertinggi 20 bulan pada 1,551.44, menokok +38.46 mata atau +2.5% MoM. Pelabur asing memainkan peranan penting dalam menyokong pasaran apabila mereka menjadi pembeli bersih. Bursa tempatan mengambil petunjuk daripada rali pemulihan di AS, yang turut membantu pasaran global untuk meningkat. Malaysia melaporkan pertumbuhan KDNK untuk S4 2023 pada 3.0%, dan angka tahunan KDNK 2023 ialah +3.7% berbanding +8.7% pada 2022, disebabkan perdagangan global dan penggunaan swasta yang lebih rendah.

Dalam keadaan pasaran yang tidak menentu ini, nilai NAB/unit Dana meningkat sebanyak 5.83% bagi tempoh 6-bulan kewangan berakhir 29 Februari 2024.

4.8 SUASANA PASARAN WANG TEMPATAN

Jawatankuasa Dasar Monetari (MPC) BNM memutuskan untuk mengekalkan OPR pada 3.00% dalam mesyuarat yang bersidang pada 24 Januari 2024.

Ekonomi global terus berkembang, didorong oleh permintaan dalam negeri berikutan keadaan pasaran pekerja yang teguh. Terdapat beberapa tanda bahawa sektor elektrik dan elektronik (electrical and electronics, E&E) semakin pulih, namun perdagangan global terus lemah, sebahagiannya disebabkan oleh perbelanjaan yang terus beralih daripada barangan kepada perkhidmatan serta sekatan perdagangan yang berterusan. Walaupun ekonomi China terus menunjukkan tanda-tanda keadaan bertambah baik, pemulihan ini kekal sederhana berikutan kelemahan dalam pasaran harta tanah. Inflasi keseluruhan dan inflasi teras global menurun sedikit pada bulan-bulan kebelakangan ini, namun terus melebihi purata. Pada peringkat global, meskipun pendirian dasar monetari dijangka kekal ketat pada tempoh terdekat, kitaran pengetatan bagi kebanyakan bank pusat telah mencapai tahap tertinggi. Prospek pertumbuhan terus bergantung pada risiko pertumbuhan menjadi perlahan, terutamanya disebabkan oleh ketegangan geopolitik yang semakin meruncing, inflasi sebenar yang lebih tinggi daripada jangkaan dan volatiliti pasaran kewangan global yang ketara.

4.8 SUASANA PASARAN WANG TEMPATAN (SAMB.)

Bagi ekonomi Malaysia, anggaran awal KDNK bagi suku keempat telah mengesahkan bahawa pertumbuhan keseluruhan pada tahun 2023 berkembang mengikut jangkaan. Pada masa hadapan, pertumbuhan dijangka meningkat pada tahun 2024, disokong oleh pemulihan eksport dan perbelanjaan dalam negeri yang berdaya tahan. Pertumbuhan guna tenaga dan upah yang berterusan kekal menyokong perbelanjaan isi rumah. Ketibaan dan perbelanjaan pelancong dijangka terus meningkat. Aktiviti pelaburan akan disokong oleh projek berbilang tahun dalam sektor swasta dan awam yang terus dilaksanakan serta pelaksanaan inisiatif pemangkin di bawah beberapa pelan induk nasional. Prospek pertumbuhan terus bergantung pada risiko pertumbuhan menjadi perlahan yang berpunca daripada permintaan luaran yang lebih lemah daripada jangkaan serta penurunan pengeluaran komoditi yang lebih besar. Sementara itu, kemungkinan pertumbuhan menjadi lebih tinggi berpunca terutamanya daripada limpahan peningkatan kitaran teknologi yang lebih besar, aktiviti pelancongan yang lebih kukuh daripada jangkaan serta pelaksanaan yang lebih pantas bagi projek sedia ada dan projek baharu.

Seperti yang dijangka, inflasi keseluruhan dan inflasi teras terus menurun pada suku keempat, disebabkan terutamanya oleh tekanan kos yang lebih rendah berikutan keadaan permintaan yang semakin stabil. Secara keseluruhan, inflasi keseluruhan dan inflasi teras pada tahun 2023 berada pada kadar yang dijangkakan, masing-masing berpurata pada 2.5% dan 3.0% pada tahun itu. Pada tahun 2024, inflasi dijangka kekal sederhana, mencerminkan secara amnya keadaan kos dan permintaan yang stabil. Risiko terhadap prospek inflasi terus sangat dipengaruhi oleh perubahan dasar dalam negeri mengenai subsidi dan kawalan harga serta perkembangan harga komoditi dan pasaran kewangan global. Yang penting, hasrat Kerajaan untuk mengkaji semula kawalan harga dan subsidi pada tahun 2024 akan mempengaruhi prospek keadaan inflasi dan permintaan.

Pergerakan ringgit baru-baru ini didorong terutamanya oleh faktor-faktor luaran serta tidak mencerminkan prestasi semasa dan prospek ekonomi dalam negeri. Memandangkan risiko volatiliti yang ketara terus wujud dalam pasaran kewangan global dan pertukaran asing, Bank Negara Malaysia akan terus memastikan mudah tunai yang mencukupi untuk menyokong pasaran pertukaran asing domestik supaya dapat berfungsi dengan teratur. Institusi kewangan terus beroperasi dengan penampan modal dan mudah tunai yang kukuh, dengan keadaan kewangan domestik terus kondusif untuk pertumbuhan kredit yang berterusan.

(Sumber: Laman sesawang Bank Negara Malaysia)

4.9 KEPENTINGAN PEMEGANG-PEMEGANG UNIT

Sepanjang tempoh 6-bulan kewangan berakhir 29 Februari 2024, tiada sebarang kejadian yang menjejaskan kepentingan Pemegang-Pemegang Unit selain daripada urusan-ususi yang dijalankan selaras dengan Surat Ikatan Amanah, Garispanduan Tabung Unit Amanah, Akta Pasaran Modal dan Perkhidmatan 2007 dan undang-undang lain yang berkuatkuasa.

4.10 REBAT DAN KOMISEN RINGAN

Sepanjang tempoh 6-bulan kewangan berakhir 29 Februari 2024, Pengurus Dana menerima komisen ringan daripada broker yang secara tidak langsung membantu dalam proses membuat keputusan berkaitan pelaburan Dana. Komisen ringan yang diterima termasuklah penyelidikan, perisian dan perkakasan komputer yang berkaitan dengan pelaburan Dana dan khidmat nasihat mengenai perkara Syariah. Komisen ringan yang diterima adalah untuk manfaat Dana dan tiada pergolakan perdagangan.

NOTES TO THE FINANCIAL STATEMENTS FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024

1. THE FUND, THE MANAGER AND PRINCIPAL ACTIVITIES

PMB Shariah Equity Fund ("the Fund") is managed by PMB Investment Berhad, was established pursuant to the execution of a 3rd Supplemental Master Deed dated 13 November 2013 between the Manager, PMB Investment Berhad, the Trustee, CIMB Islamic Trustee Berhad for the registered unitholders of the Fund. By a 4th Supplemental Master Deed dated 4 March 2014, the Fund has changed its name from ASM Shariah TNB Employees Fund to PMB Shariah TNB Employees Fund. On 28 October 2021, the TNB's Board of Directors had approved the change of the Fund's name to PMB Shariah Equity Fund and to open the Fund's investment eligibility to the public. The Fund is governed by a Master Deed dated 22 August 1995 and subsequent Supplemental Master Deeds (collectively referred to as "Deeds").

The main activity of PMB Shariah Equity Fund is to invest in a marketable securities transaction in which the investment is made in the "Permitted Investments" as defined in the Deeds and subject to approval by the Securities Commission Malaysia and in accordance with Shariah requirements. This includes securities listed on Bursa Malaysia and in money market instruments approved by the Shariah principles. The Fund will continue to operate until it is terminated or dissolved in accordance with the provision of the Master Deed and the Capital Markets and Services Act 2007.

The Manager is a company incorporated in Malaysia and wholly owned by Pelaburan MARA Berhad. The principal activity of the Manager is management of Unit Trust Funds and Corporate Funds.

2. OBJECTIVE AND POLICIES OF FINANCIAL RISK MANAGEMENT

This Unit Trust Fund operations are exposed to several risks including equity market risk, stock specific risk, equity-related securities risk, Shariah status reclassification risk, dividend policy risk and liquidity risk. Financial risk management is carried out through the system of internal control and investment restrictions outlined in the Guidelines on Unit Trust Funds by the Securities Commission Malaysia and based on Shariah principles.

(a) Equity Market Risk

The performance of the Fund is subject to the volatility of the stock market which is influenced by the changes in the economic and political climate, interest rate, international stock market performance and regulatory policies. The movement of the value in the underlying investment portfolio will affect the Net Asset Value ("NAV") of the Fund. Any downward movement of the value will negatively impact the NAV of the Fund.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024

2. OBJECTIVE AND POLICIES OF FINANCIAL RISK MANAGEMENT (CONTD.)

(a) Equity Market Risk (Contd.)

The table below shows the impact on NAV of the Fund at the reporting date due to the possible change in equity price with all other variable held constant:

<u>Quoted Shariah-compliant Shares in Malaysia</u> RM	<u>Changes in equity price</u> %	<u>Impact on distributed net asset value</u> RM
91,952,911	+5 / -5	4,597,646 / (4,597,646)

(b) Stock Specific Risk

Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.

(c) Equity-related Securities Risk

The value of the Shariah-compliant equity-related securities depends on the value of the underlying equities that the Shariah-compliant securities are related to. Any upward movement in the value of the underlying Shariah-compliant equities may result an upward movement of the value of the respective Shariah-compliant equity-related securities, and vice versa. Hence, the movement of the value of the Shariah-compliant equity-related securities will affect the value of the Fund. The Fund may also invest in Shariah-compliant equity-related securities such as Shariah-compliant warrants, that have an expiry date and may experience time decay and the erosion of value accelerates as the instrument advances to its expiry date. If the Shariah-compliant warrant is not exercised on or before the expiry date, the Shariah-compliant warrant will have no value and negatively impact the NAV of the Fund.

(d) Shariah Status Reclassification Risk

(a) Shariah-compliant equity securities

This risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the Shariah Advisory Council ("SAC") of the Securities Commission Malaysia ("SC"), the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

2. OBJECTIVE AND POLICIES OF FINANCIAL RISK MANAGEMENT (CONTD.)

(d) Shariah Status Reclassification Risk (Contd.)

(a) Shariah-compliant equity securities (Contd.)

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of reclassification of the list of Shariah-compliant securities ("Reclassification") by the SAC of the SC or date of review ("Review") by the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification or Review should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to *baitulmal* and/or charitable bodies as advised by the Shariah Adviser; or
- (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

2. OBJECTIVE AND POLICIES OF FINANCIAL RISK MANAGEMENT (CONTD.)

(d) Shariah Status Reclassification Risk (Contd.)

- (b) Islamic fixed income instruments or Islamic money market instruments or Islamic deposits.

This risk refers to the risk of a possibility that the currently held Islamic fixed income instruments or Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income instruments or money market instruments or deposits.

(e) Dividend Policy Risk

This is a risk particular to the Fund which has heavy emphasis on high yield dividend stock. Such a risk may occur when fundamental of the company's business deteriorate or if there is a change in the dividend pay-out policy resulting in a reduction of the dividend to be paid by the company. This risk may be mitigated by investing mainly in companies with a consistent historical record of paying dividends, strong cash flow, or operating in fairly stable industries.

(f) Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavorable prices.

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by the unitholders. Islamic liquid assets comprise cash, Islamic deposits with licensed financial institutions and other Shariah-compliant instruments which are capable of being converted into cash within 7 days.

The table below summarises the Fund's financial liabilities into relevant maturity grouping based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

NOTES TO THE FINANCIAL STATEMENTS FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation

The financial statements of the Fund are prepared under the historical cost convention and modified to include other bases of valuation as disclosed in other sections under significant accounting policies and in compliance with the Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards ("IFRSs") and Guidelines on Unit Trust Funds by the Securities Commission Malaysia.

The following are accounting standards, amendments and interpretations that have been issued by the Malaysian Accounting Standards Board ("MASB"):

(i) Applications towards MFRS and amendments to MFRS

Adoption of new and amended standards

During the financial period, the Fund has adopted the following amended MFRSs that are mandatory for annual financial periods beginning on or after 1 January 2023:

- Amendments to MFRS 3 - Business Combinations (Reference to the Conceptual Framework)
- Amendments to MFRS 116 - Property, Plant and Equipment (Proceeds before Intended Use)
- Amendments to MFRS 137 - Provisions, Contingent Liabilities and Contingent Assets - Onerous Contracts (Cost of Fulfilling a Contract)
- Annual Improvements to MFRS 2018 – 2020
- Amendments to MFRS 17 Insurance Contracts (Initial Application of MFRS 17 and MFRS 9 Comparative Information)
- Amendments to MFRS 101 – Presentation of Financial Statements (Classification of Liabilities as Current or Non-current)
- Amendments to MFRS 108 – Accounting policies, Changes in Accounting Estimates and Errors – Definition of Accounting Estimates.
- Amendments to MFRS 112 Income Taxes – Deferred Tax related to Assets and Liabilities arising from a Single Transaction.

The adoption of the new standards and amendments to standards and interpretations did not have any significant impact on the financial statements of the Fund.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Preparation (Contd.)

(i) Applications towards MFRS and amendments to MFRS (Contd.)

Standards issued but not yet effective

Effective for financial year beginning on or after 1 January 2024:

- Amendments to MFRS 7 – Supplier Finance Arrangements (Amendments to MFRS 107 and MFRS 7)
- Amendments to MFRS 16 – Lease Liability in a Sale and Leaseback

Effective for financial year beginning on or after 1 January 2025:

- Amendments to MFRS 121 – Lack of Exchangeability

Effective date of these Amendments to Standards has been deferred and yet to be announced:

- Amendments to MFRS 10 and MFRS 128 – Investments in Associates and Joint Venture (Sale or Contribution of Assets between an Investor and its Associates or Joint Venture)

The adoption of the above standards and interpretations will have no material impact on the financial statements of the Fund.

(b) Quoted Shariah-compliant Shares in Malaysia

Unit trust is subject to the Trust Deed whereby quoted Shariah-compliant shares are valued at the market closing price on Bursa Malaysia at the reporting date.

(c) Dividend Income

The amount of dividend from investment is determined on an accrual basis once the company's share price is recorded "XD" (without dividend) on Bursa Malaysia. The single tier system was introduced effective 1 January 2008 and single-tier dividend distributed by a resident company are exempt from tax in Malaysia.

(d) Profit from Islamic Deposits

The profit from Islamic deposits is on accrual basis using the effective profit rate method. The profit received by the Fund was derived from Malaysia and credited by any bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial and Services Act 2013 which are exempt from tax according to Income Tax 1967 (ITA 1967).

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(e) Profit/(Loss) from Sale of Investment

Costs incurred to determine profit/(loss) from sale of investment are based on the weighted average cost. Pursuant to ITA 1967, profit from realisation of investments will not be treated as income of the Fund and are not subject to tax.

(f) Unrealised Profit/ (Loss)

Unrealised profit and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised profit and losses for financial instrument which were realised (i.e. sold, redeemed or matured) during the reporting period.

(g) Creation and Cancellation of Units

Proceeds from creation of units and payment of cancellation of units are based on the market value of the units comprising the share of capital and the portion of income at the date of the invention or disposition.

(h) Transaction Costs

Transaction cost are cost incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to brokers and dealers. Transaction costs, when incurred, are immediately recognised in profit or loss as an expenses.

(i) Distribution Equalisation

Distribution equalisation is accounted for on the date of issue and depreciation based on the average amount of distributable income included in the unit price and disposals.

(j) Cash and Cash Equivalents

Cash and cash equivalents comprise of Islamic deposits and Al-Wadiah savings with banks and licensed financial institutions where such savings are based on Shariah principles.

(k) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ('RM'), the currency of the primary economic environment in which the Company operates (its functional currency).

NOTES TO THE FINANCIAL STATEMENTS FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(I) Financial Instruments

(i) Recognition and Initial Measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

An embedded Islamic derivative is recognised separately from the host contract where the host contract is not a financial asset, and accounted for separately if, and only if, the Islamic derivative is not closely related to the economic characteristics and risks of the host contract and the host contract is not measured at fair value through profit or loss. The host contract, in the event an embedded Islamic derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

(ii) Financial instrument categories and subsequent measurement

Financial assets

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Fund changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

a) **Amortised cost (AC)**

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective profit method. The amortised cost is reduced by impairment losses. Profit income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(I) Financial Instruments (Contd.)

- (ii) Financial instrument categories and subsequent measurement (Contd.)

Financial assets (Contd.)

a) Amortised cost (AC) (Contd.)

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit impaired financial assets where the effective profit rate is applied to the amortised cost.

b) Fair value through other comprehensive income (FVOCI)

(i) Debt investments

Fair value through other comprehensive income category comprises debt investment where it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the debt investment, and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. The debt investment is not designated as at fair value through profit or loss. Profit income calculated using the effective profit method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in other comprehensive income.

On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Profit income is recognised by applying effective profit rate to the gross carrying amount except for credit impaired financial assets where the effective profit rate is applied to the amortised cost.

(ii) Equity investments

This category comprises investment in equity that is not held for trading, and the Fund irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of investment.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(I) Financial Instruments (Contd.)

- (ii) Financial instrument categories and subsequent measurement (Contd.)

Financial assets (Contd.)

b) Fair value through other comprehensive income (FVOCI) (Contd.)

(ii) Equity investments (Contd.)

Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are not reclassified to profit or loss.

c) Fair value through profit or loss (FVPL)

All financial assets not measured at amortised cost or fair value through other comprehensive income as described above are measured at fair value through profit or loss. This includes Islamic derivative financial assets (except for an Islamic derivative that is a designated and effective hedging instrument). On initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income as at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets categorised as fair value through profit or loss are subsequently measured at their fair value. Net gains or losses, including any profit or dividend income, are recognised in the profit or loss.

All financial assets, except for those measured at fair value through profit or loss and equity investments measured at fair value through other comprehensive income, are subject to impairment assessment.

Financial Liabilities

The categories of financial liabilities at initial recognition are as follows:

(a) Amortised cost (AC)

Other financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective profit method.

Profit expense and foreign exchange gains and losses are recognised in the profit or loss. Any gains or losses on derecognition are also recognised in the profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(I) Financial Instruments (Contd.)

Financial Liabilities (Contd.)

(b) Provisions

Provision is recognised only when the Fund has a present obligation (legal and constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provision is reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expired or transferred, or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset and the sum of consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expired. A financial liability is also derecognised when its terms are modified and the cash flows of the modified liability are substantially different, in which case, a new financial liability based on modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(l) Financial Instruments (Contd.)

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Fund currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and liability simultaneously.

(v) Unitholders' Contribution

The Unitholders' contributions to the Fund meet the definition of puttable instruments classified as equity under the MFRS 9.

Instruments classified as equity are measured at cost and are not remeasured subsequently.

Distribution equalisation is accounted for at the date of creation and cancellation of units of the Fund. It represents the average amount of distributable income or loss included in the creation and cancellation prices of units.

(m) Impairment of Assets

(i) Financial assets

The Fund recognised loss allowances for expected credit losses on financial assets measured at amortised cost, debt investments measured at fair value through other comprehensive income, contract assets and lease receivables. Expected credit losses are a probability-weighted estimate of credit losses.

The Fund measures loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-month expected credit loss. Loss allowances for trade receivables, contract assets and lease receivables are always measured at an amount equal to lifetime expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Fund consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information, where available.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(m) Impairment of Assets (Contd.)

(i) Financial assets (Contd.)

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Fund are exposed to credit risk.

The Fund estimates the expected credit losses on trade receivables using a provision matrix with reference to historical credit loss experience.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

An impairment loss in respect of debt investments measured at fair value through other comprehensive income is recognised in profit or loss and the allowance account is recognised in other comprehensive income.

At each reporting date, the Fund assesses whether financial assets carried at amortised cost and debt securities at fair value through other comprehensive income are credit impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or fully) to the extent that there is no realistic prospect of recovery. This is generally the case when the Fund determines that the obligor does not have assets or sources of income that could generate sufficient cash flows to pay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Fund's procedures for recovery amounts due.

(ii) Other Assets

The carrying amounts of other assets (except for inventories, contract assets, lease receivables, deferred tax asset, assets arising from employee benefits, investment property measured at fair value and non-current assets (or disposal groups) classified as held for sale) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each period at the same time.

NOTES TO THE FINANCIAL STATEMENTS FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(m) Impairment of Assets (Contd.)

(ii) Other Assets (Contd.)

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units. Subject to an operating segment ceiling test, for the purpose of goodwill impairment testing, cash-generating units to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (group of cash-generating units) and then to reduce the carrying amounts of the other assets in the cash-generating unit (groups of cash-generating units) on a *pro rata* basis. An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

(n) Fair Value of Financial Instruments

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. exit price).

NOTES TO THE FINANCIAL STATEMENTS FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(n) Fair Value of Financial Instruments (Contd.)

The fair value of financial assets traded in active markets (such as trading Shariah-compliant securities) are based on quoted market prices at the close of trading on the financial year end date.

An active market is a market in which transactions for the assets and liabilities take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

The carrying values of cash and cash equivalents, amount owing by stockbroking, profit receivable from Islamic deposits, dividend receivable and all current liabilities are reasonable approximations of their fair values due to their short-term nature.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

(n) Fair Value of Financial Instruments (Contd.)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

<u>29.02.2024</u>	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
Financial Assets at FVPL				
Quoted Shariah – compliant shares in Malaysia	91,952,911	-	-	91,952,911

<u>30.08.2023</u>	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
Financial Assets at FVPL				
Quoted Shariah – compliant shares in Malaysia	62,250,772	-	-	62,250,772

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed Islamic collective investment schemes and Shariah-compliant equities.

4. INVESTMENTS

Details are as follows:

	<u>Note</u>	<u>29.02.2024</u> RM	<u>30.08.2023</u> RM
(a) Quoted Shariah – compliant shares @ cost		73,929,323	50,277,871
Surplus		18,023,588	11,972,901
Market Value		91,952,911	62,250,772
(b) Islamic Deposits	5	13,545,164	19,369,757
Total Investments		105,498,075	81,620,529

The list of investments as in Schedule A.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

5. CASH AND CASH EQUIVALENTS

	<u>Note</u>	<u>29.02.2024</u> RM	<u>30.08.2023</u> RM
Islamic deposits with licensed financial institutions in Malaysia	4	13,545,164	19,369,757
Al – Wadiah savings		22,676	474,242
		<u>13,567,840</u>	<u>19,843,999</u>

Islamic deposits includes fixed deposits based on Shariah principles in licensed financial institutions as follows:

	<u>29.02.2024</u> RM	<u>30.08.2023</u> RM
(a) Islamic Bank	1,848,756	-
(b) Investment Bank	11,696,408	19,369,757
	<u>13,545,164</u>	<u>19,369,757</u>

Average profit rate during the financial period and the average maturity of the Islamic deposits on the closing date are as follows:

	<u>Average Profit</u> <u>Rate</u> %	<u>Average</u> <u>Maturity Period</u> Days
<u>29.02.2024</u>		
Islamic Bank	2.98	9
Investment Banks	3.05	6
<u>30.08.2023</u>		
Investment Bank	3.15	37

6. AMOUNT OWING BY THE MANAGER

	<u>29.02.2024</u> RM	<u>30.08.2023</u> RM
Creation of unit receivable	1,359,143	574,324
Cancellation of unit payable	(223,131)	(8,180)
Management fee accrued	(127,006)	(100,834)
	<u>1,009,006</u>	<u>465,310</u>

7. DISTRIBUTION

No income distribution (semi-annual) to unitholders is recommended for the financial period ended 29 February 2024 [2023: 2.20 sen (gross) (2.20 sen (net))].

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE 6 MONTHS FINANCIAL PERIOD ENDED 29 FEBRUARY 2024**

8. UNIT HOLDERS' CAPITAL

	<u>29.02.2024</u>		<u>30.08.2023</u>	
	Unit	RM	Unit	RM
Balance brought forward	150,404,776	93,902,809	72,199,845	53,559,033
