KEY PRODUCT FEATURES

What am I investing in?

Relaunch Date	25 th October 2013
Financial Year End	31 December
Benchmark	50% FBMSHA + 50% Maybank 12-month Islamic Fixed Deposit
Base Currency	RM
Investment Objective	To achieve capital growth over the medium to long term period by investing in a portfolio of investments that comply with Shariah principles.
Investment Strategy	The Fund adopts a tactical asset allocation strategy and has the flexibility to rebalance its allocation between the different asset classes of Shariah-compliant equities and Shariah-compliant equity-related securities, and non-equity investments including sukuk, Islamic money markets instruments, Islamic deposit placements and/or other Shariah-compliant permitted investments, depending on market conditions. Its equity allocation or non-equity allocation may range between 0% and 100% of the NAV of the Fund.

The Fund will be actively managed through the use of tactical strategies and frequent portfolio reallocation between Shariah-compliant equity, Shariah-compliant equity-related securities and sukuk, Islamic money market instruments, Islamic deposit placements and/or other Shariah-compliant permitted investments. The asset allocation can vary from a defensive to an aggressive asset allocation at any given time, depending on the market environment and/or based on the designated fund manager's view in order to take advantage of the short term market inefficiencies in different asset classes and to navigate changing markets with the objective of achieving sustainable, long term positive returns. The frequency of trading will depend on the securities market conditions.

The portfolio construction process will be research driven with extensive bottom-up fundamental analysis coupled with top down economic and sector analysis. In identifying investable Shariah-compliant equities of listed companies, the designated fund manager will rely on fundamental research, taking into consideration the companies' financial strengths (including track records), prospects, business operations and governance. In addition, prospects for the economies and sectors in which the companies operate will also be assessed.

The focus will be on Shariah-compliant equities and Shariah-compliant equity-related securities of public-listed companies with growth prospects over medium to long term horizon and/or having forecast dividend yield that is equivalent to the prevailing fixed deposit rates per annum or 3.0% per annum, whichever is lower. Other valuation measures may include Price to Earnings (PE), PE to Growth, Discounted Cash Flow, Price to Revalued Net Asset Value or Price to Book depending on the sector the companies operate and whether the operations are perpetual or for a defined period. Analysis will also consider revenue growth, profit margins, sustainability of earnings, balance sheet and cash flow.

The non-equity portion of the Fund will be invested in sukuk, Islamic money market instruments, Islamic deposit placements and/or other Shariah-compliant permitted investments. Where investment climate is deemed to be unfavourable and weakness in equity is expected, the Fund will raise its holdings in sukuk, Islamic money market instruments and/or Islamic deposit placements.

For investment in sukuk, credit evaluation and interest rate direction are the most critical risk factors to be considered. As for credit evaluation, the fund manager set stringent investment criteria in assessing sukuk, covering mainly the nature of business, management, cash flow, financing level and collateralisation. In case the Fund invests in such instrument, only investment grade sukuk rated by either RAM or MARC will be considered. To be prudent, the designated fund manager adopts a strategy by:-

- i) selecting only instruments with a minimum credit rating of A2 as per the rating scale of RAM or its equivalent for long term instruments and P2 or its equivalent for short-term instruments; and/or
- ii) having a longer or shorter duration of debt instruments depending on the expected direction of the KLIRR.

For Islamic money market instruments and/or Islamic deposit placement the selection will be based on criteria such as liquidity, prevailing rate and tenure. The short-term nature of the sukuk, Islamic money market instruments and/or

	Islamic deposit placements will allow the designated fund manager to easily switch to Shariah-compliant equities when the stock market is favourable.
Asset Allocation	<ul style="list-style-type: none"> • The Fund may invest in Shariah-compliant equities and Shariah-compliant equity-related securities with a minimum allocation of 0% and a maximum allocation of 100% of the Fund's NAV; and • The Fund may invest in Islamic money market instruments, Islamic deposit placements, sukuk and/or other Shariah-compliant permitted investments with a minimum allocation of 0% and a maximum allocation of 100% of the Fund's NAV.
Distribution Policy	<p>The distribution (if any) is annual, subject to the availability of income for the financial year.</p> <p>The distribution of income distribution, if any, will be made in the form of cash or additional units reinvested into the Fund.</p>
Minimum Initial Investment	RM10
Minimum Additional Investment	RM10

Who am I Investing with?

Manager	PMB Investment Berhad
Trustee	AmanahRaya Trustees Berhad
Shariah Adviser	Amanie Advisors Sdn Bhd

What are the possible outcomes of my investment?

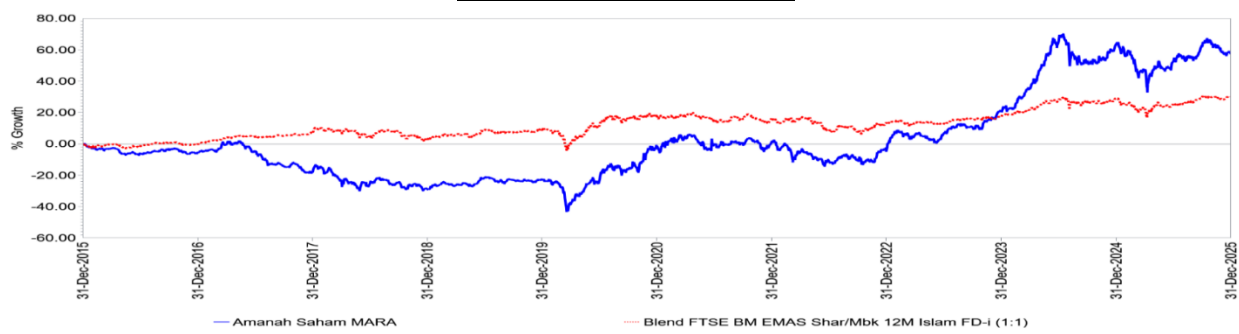

The Fund may invest in a broad range of Shariah-compliant assets, including equities and equity-related securities, as well as Islamic money market instruments, Islamic deposits, sukuk, and other permitted Shariah-compliant investments. The allocation to each asset class can range from a minimum of 0% up to a maximum of 100% of the Fund's Net Asset Value (NAV), depending on market conditions and investment strategy.

Fund Performance

Basis of Fund Performance Computation

The calculation for Average Total Return and Annual Total Return of the Funds is based on computation methods of Lipper and sourced from Lipper for Investment Management (Lipper IM). The basis of computation is on NAV-to-NAV, income re-invested, over a specified period. Lipper IM is an application that provides comprehensive fund information and performance, fund ratings, analytic tools and charting. Information about Lipper IM can be obtained from www.lipperweb.com.

The PTR was lower than the previous year as a result of decrease in trading activities undertaken by the Fund during the financial year.

KEY RISKS

What are the key risks associated with this product?

Equity Market Risk	The performance of the Fund is subject to the volatility of the stock market which is influenced by the changes in the economic and political climate, interest rate, international stock market performance and regulatory policies. The movement of the value in the underlying investment portfolio will affect the NAV of the Fund. Any downward movement of the value will negatively impact the NAV of the Fund.
Stock Specific Risk	Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.
Equity-related Securities Risk	<p>The value of the Shariah-compliant equity-related securities depends on the value of the underlying equities that the Shariah-compliant securities are related to. Any upward movement in the value of the underlying Shariah-compliant equities may result an upward movement of the value of the respective Shariah-compliant equity-related securities, and vice versa. Hence, the movement of the value of the Shariah-compliant equity-related securities will affect the value of the Fund.</p> <p>The fund may also invest in Shariah-compliant equity-related securities such as Shariah-compliant warrants, that have an expiry date and may experience time decay, and the erosion of value accelerates as the instrument advances to its expiry date. If the Shariah-compliant warrant is not exercised on or before the expiry date, the Shariah-compliant warrant will have no value and negatively impact the NAV of the Fund.</p>
Shariah Status Reclassification Risk	<p>(a) Shariah-compliant equity securities</p> <p>This risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities.</p> <p>Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:</p> <p>(i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the effective date of reclassification of the list of Shariah-compliant securities ("Reclassification") by the SAC of the SC or date of review ("Review") by the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the effective date of Reclassification or Review should be channelled to baitulmal and/or charitable bodies as advised by the Shariah Adviser;</p>

	<p>(ii) to hold such securities if the value of the said securities is below the investment cost on the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to baitulmal and/or charitable bodies as advised by the Shariah Adviser; or</p> <p>(iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.</p> <p>(b) Islamic fixed income instruments or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes</p> <p>This risk refers to the risk of a possibility that the currently held Islamic fixed income instrument or Islamic money market instruments or Islamic deposits or Islamic collective investment schemes invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income instrument or money market instruments or deposits or collective investment schemes.</p>
<p>Interest Rate Risk</p>	<p>Movements in interest rate will have an impact on a management of a fund. This risk refers to the effect of interest rate changes on the market value of Islamic money market instruments, Islamic deposit placements and sukuk. Any downward movement of the interest rate may result in a loss of the expected return from the Fund's investments in Islamic money market instrument and Islamic deposit placement. The value of the sukuk has a tendency to move inversely with the movement of the interest rate whereby the prices of the sukuk may fall when interest rates rise, and vice versa.</p> <p>The interest rate is a general indicator. Although the Fund does not invest in interest bearing instruments, the movement of the interest rate will have an impact on the profit rate of the Islamic money market instruments and Islamic deposit placement and consequently affect the expected return of the Fund's investments. The Fund's future reinvestment in Islamic deposit placement will benefit from higher profit rate and in the event of a falling profit rates, the Fund's future investment in Islamic deposit placement will be reinvested at a lower profit rate which in turn will reduce the Fund's potential return.</p>
<p>Credit/Default Risk</p>	<p>Credit risk relates to the creditworthiness of the issuers of the sukuk and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the sukuk. In the case of rated sukuk, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a sukuk either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the sukuk. This could adversely affect the value of the Fund.</p>

- It is our policy that the Fund is valued on a daily basis at the end of a Business day.
- You may obtain the latest information on the Fund's price from our website at pmbinvestment.com.my.

How can I exit from this investment and what are the risks and costs involved?

- **Cooling-off Period**

If you are a first time individual investor with the Manager shall have the right, within 6 Business Days, commencing from the day the completed application is received and accepted by the Manager to withdraw his/her investment in the Fund. However, this cooling-off period does not apply to a staff of the Manager and a person registered with a body approved by the SC to deal in unit trusts. The refund pursuant to an exercise of a cooling-off right must be as follows:-

- a) If the original price of a unit is higher than the price of a unit at the point of exercise of the cooling-off right ("market price"), the market price at the point of cooling-off; or
- b) If the market price is higher than the original price, the original price at the point of cooling-off.

The Manager will refund the charges imposed on the day the units were purchased. The money payable out of this transaction will be refunded to the investor within seven (7) Business Days of the Manager's receipt of the repurchase request.

- **Redemption**

You may exit from this investment on any business day by completing a Transaction Form together with a photocopy of your NRIC.

- For a request to redeem units received or deemed to have been received by us on or before the cut-off time at 3.30 p.m. on any Business Day, units will be redeemed at the NAV per unit calculated at the end of Business Day on which the request is received ("forward pricing").
- Where the repurchase request is received after the cut-off time, the request will be deemed to have been received on the next Business Day.
- Payment will be made within seven (7) Business Days of the receipt of redemption request, except for PMB SCMF, where the redemption proceeds will be paid within four (4) Business Days, provided that all required documents are completed and verified.
- The proceeds of payment will be directly credited to your bank account via online banking services or telegraphic transfer.
- We reserve the right to vary the terms and conditions of repurchase/redemption mode from time to time, which shall be communicated to you in writing.
- In the event of any technical difficulties beyond the Manager's control or should the redemption request in the sale of units cannot be liquidated at an appropriate price or on adequate terms and is as such not in the interest of the existing Unit Holders, redemption monies may be paid at such other period or as may be permitted by the relevant authorities from time to time.
- You may redeem your investment wholly or partially. There is no minimum number of units for redemption but you must meet the minimum holding of units after a repurchase transaction. If you insist on making a repurchase request knowing that after the transaction you will hold less than minimum holdings of units, we may withdraw all your units and we will pay the proceeds to you. We may, with the consent of the Trustee, reserve the right to defer your repurchase request if such transaction would adversely affect the Fund or the interest of the Unit Holders.
- The value of the repurchase/ redemption price will be the NAV per unit at the end of the Business Day on which the request for repurchase/ redemption of units is received by us.
- No restriction is set on the frequency of redemption. For certificate holders, you can only redeem your units upon surrendering the unit certificate(s).
- No redemption fee is charged. However, bank charges and other bank fees, if any, will be borne by the Unit Holder.
- If the units are held in the names of more than one Unit Holder, where the mode of holding is specified as "Joint Application", redemption request will have to be signed by all the joint holders unless the joint applicant is a minor.
